

Authors' Reply

Julio H. Braslavsky, Richard H. Middleton, and
James S. Freudenberg

The authors are very grateful to A. J. Rojas for pointing out the missing term in the formula of Theorem III.2 in their paper [1]. The

Manuscript received January 26, 2009. First published May 27, 2009; current version published June 10, 2009.

J. H. Braslavsky is with the Australian Research Council Centre of Excellence for Complex Dynamic Systems and Control, The University of Newcastle, Callaghan 2308, Australia (e-mail: jhb@ieee.org).

R. H. Middleton is with The Hamilton Institute, National University of Ireland, Maynooth, County, Kildare, Ireland (e-mail: richard.middleton@nuim.ie).

J. S. Freudenberg is with the Department of Electrical Engineering and Computer Science (EECS), University of Michigan, Ann Arbor, MI 48109-2122 USA (e-mail: jfr@eecs.umich.edu).

formula in the paper is correct unless the plant is simultaneously non-minimum phase, has a pole strictly outside the unit circle, and has relative degree greater than one. In that case, the formula needs to include an additional term, as shown by Rojas [2].
